

## 20 Years of Pain

Born free as a hunter  
But now treated like a slave  
I don't know what I have done wrong  
Human breed will be my grave

My soul is deeply wounded  
Why are they doing this to me?  
I will run with the pack  
I deserve to be free

**20 Years of Anger  
20 Years of Pain  
I will live no longer  
There's nothing more to gain**

Every day the same faces  
Every night the same dreams  
With the morning comes the sadness  
Another day without a sense

People do explain their children  
How they have to see me  
What a dangerous species  
I once used to be

**20 Years of Anger  
20 Years of Pain  
I will live no longer  
This fucking live in vain**

I'm not that cruel monster  
Mankind wanted me to be  
The monster is your ignorance  
Against my liberty

So I hope my days are numbered  
And this road of tears an end  
Here I can't expect any mercy  
God in heaven my only friend

**20 Years of anger  
20 Years of rage  
You can't break my spirit  
So let's turn the last page**
