

Not long time ago - I thought we were friends
I did all for you - I tried to give me best
Once I said to you - be honest to me
Look straight in my face - and say it direct

You try to stab me - in my back
Told some wrong storys - to denigrate me
You are not a man - a bastard without balls
You can't stay in front - when the fire gets hot

You're my Enemy
Go out my way - or I will kill you
You're my fucking enemy
Go out my way - or I will kill you

You think you are - a leading man
But in your Head - it is full of Shit
My hate for you - grows more and more
The Day will come - I slash you to the core

Against you I will - fight till the end
You will feel the force - how strong I am
I defend my rights - let's see how it comes
Play just your Game - the victory belongs to me

You're my Enemy
Go out my way - or I will kill you
You're my fucking enemy
Go out my way - or I will kill you
