

Fucking Freak

Intro 2x

Politicians and leaders of today
Make us believing they are friends
Shaking hands from Monday to Friday
Trying really hard to be attend

Big Words are easy just to say
With one big laugh in the face
True reasons hiding all away
Still standing in front full of grace.

You are a fucking freak
2x **I don't listen when you speak**
Cause you're a fucking freak
D'ont play with us hide and seek

Break 2x

But we know that every spoken word
Avery single action that you make
Is only to bring yo more foreword
Every smile of yours is just a fake

Your playing a role in that piece
The script is made since long ago
You hope your income will increase
You accept nothing that's below

You are a fucking freak
2x **I don't listen when you speak**
Cause you're a fucking freak
D'ont play with us hide and seek

Why do you lie to us
D'ont you feel any Love
What kind could be your motivation
Are you in the service of the nation?

D'ont you think that you should have responsibility
Everything that you do is what we directly see
Why d'ont you try to make yourself servant for us all
Instead of that are wealth and power your only really goals

Break 2x

The time your drinking your champagne
Others even have nothing to eat
I think these really is insane
But every day this will repeat

You never had to work to life
Everything comes from other ones
That's why I cant't forgive
That you don't chose other opitons

You are a fucking freak
2x I don't listen when you speak
Cause you're a fucking freak
D'ont play with us hide and seek

Why do you lie to us
D'ont you feel any Love
What kind could be your motivation
Are you in the service of the nation

D'ont you think that you should have responsability
Everything that you do is what we directly see
Why d'ont you try to make yourself servant for us all
Instead of that are wealth and power your only really goals
