

The Right Way

Try to keep your self-respect
Your love for mother earth
Take a piece of time
And think about yourself

How many times the circumstances
Force us to give up
To leave the way we want to go
Just for somebody's crap

**I try to go the right way
Do I like what I see?
Keep on fighting for my dreams
For you and for me**

The way society uses to go
Is full of empty words
The blind man leads the blind
In a world full of hate

The time has come to make our choice
To answer for our souls
Guided by the angels
With the power of rock'n roll

**I try to go the right way
With faith and honesty
To fight my demons everyday
For you and for me**

The hate, the pain, the cruelty
It starts within yourself
The thought, the word and then the action
Be careful with your mind

So we should stand united
Fighting for our space
Caring for each other
And laughing at the devils face

**I try to go the right way
With hope for liberty
To point a sign into this world
For you and for me**
