

The Road of Fire

Driving on the Road of Fire
Trying everything that could make you higher
Going the way on your on danger
Everyone that you'll meet will be a stranger

**Is it all good for me
Is it all bad
Everything that I will see
can driving me mad**

**I try to understand
What tomorrow brings
To make the way I could demand
God please send me wings**

As soon as you come to a bypasses
Ralties will change to own classes
It will depend of your decision
How this will be in precision

**Is it all good for me
Is it all bad
Everything that I will see
can driving me mad**

**I try to understand
What tomorrow brings
To make the way I could demand
God please send me wings**
